EXPERIENCE

Junior DevOps Engineer | 2 Sahaba Solutions LLP |February 2025–Present
- Managed cloud infrastructure operations for production (10,000+ daily users), achieving 99.99% service uptime.
- Configured Apache Kafka for real-time data streaming; 99.9% message delivery.
- Built/maintained robust CI/CD pipelines using Jenkins and GitHub Actions, automating build/deployment.
- Managed/optimized AWS infrastructure (cost/performance)
- Implemented OIDC authentication systems; mentored junior team members on DevOps best practices.

DevOps Mentor | BridgeSkill | June 2025 – Present
- Trains aspiring DevOps engineers in cloud infrastructure, CI/CD, and automation tools including Git, Docker, Jenkins, and Terraform.
- Develops DevOps training curriculum, conducts mock interviews, and performs code reviews to assess student progress.

DevOps Intern | BridgeSkill | August 2024 – February 2025
- Optimized AWS cloud infrastructure and automated application deployments.
- Implemented a Dockerized setup for Magento, integrating Elasticsearch and Nginx.
- Authored technical articles on DevOps topics published on Medium and LinkedIn.

EDUCATION
- Bachelor of Arts, English | Kannur University | 2019 – 2022
- Prompt Engineering Certification | Dubai Future Foundation | 2024

PROJECTS

Paper.Social Multi-Cloud DevOps Platform | GitHub Repository
Developed an enterprise-grade multi-cloud deployment pipeline using Terraform, Ansible, Docker, AWS, and IBM Cloud.
Achieved 99.99% uptime with zero-downtime blue-green deployments.

ProductDataPro - AI-Assisted Development | GitHub Repository
Built an AI-powered e-commerce platform leveraging prompt engineering and a zero-code architecture.Orchestrated CI/CD through GitHub Actions.

AI Tools Collection - Community Resource | GitHub Repository
Created a community platform featuring 50+ AI tools.
Implemented automated link verification using Python and GitHub Actions.

SKILLS

Cloud Platforms: AWS (EC2, S3, ALB, IAM), CloudFormation, AWS CLI, Cost Optimization

Containerization: Docker, Docker Compose, Minikube

Infrastructure as Code (IaC): Terraform, AWS CloudFormation, Configuration Management

CI/CD: Jenkins, GitHub Actions, Automated Pipelines

Monitoring: NewRelic, Uptime Monitoring, Log Management, Incident Response

Version Control: Git, GitHub

Web & Data: Nginx, Magento, OAuth2, Elasticsearch, Apache Kafka

Security: OIDC, Identity and Access Management (IAM), Security Best Practices

AWARDS

Winner, Manorama Startup Competition (2023).

Published Technical Writer on Medium and LinkedIn.
